

# New York Stock Market

New York, September 25.—The feature of the day on the stock exchange was an advance in call money to 7 per cent—the highest rate of the year. The rise occurred just before the close, after a number of issues had recorded their best prices of the year. Among these were the Harman shares, United States Steel and Amalgamated Copper. The sudden rally came in the midst of a degree of activity greater than the market has recently shown. Dealings in the first hour aggregated over \$20,000,000 and the day's total output approximately \$80,000,000.

Some justification for the money rally was found in the condition of the local banks. These institutions have lost cash steadily on the week, the drain since last Friday amounting to over \$3,000,000. In addition, the sub-treasury today had a credit of \$1,000,000 at the clearing house. The loss of cash is partly offset by gold imports, of which a little more than \$1,000,000 was received. From present indications, however, the week end may show a cash loss great enough to wipe out the meagre reserves. Recent activity of the stocks will acquire importance in the loan account.

Industrial and metal stocks were most conspicuous in the day's business. Bonds were active and firm. United States government bonds were unchanged on call.

New York, September 25.—Prime commercial paper, 1-2 to 3 per cent. Sterling exchange steady, with actual business in bankers' bills at \$4.8250 for sixty-day bills, and at \$4.8565 for demand.

Commercial bills, \$4.81-3-4. Money on call firm, 4-4 1/2 per cent. ruling rate, 5 closing bids, 5-1-2 offered at 5-3-4. Time loans, sixty days, 5-1-2 to 5-1-4, ninety days, 5-1-2 to 5-1-4, six months, 5-1-2.

## CHICAGO GRAIN MARKET.

Chicago, Ill., September 25.—Heavy selling of wheat today by a leading firm started general liquidation and eased a weak market. The market, though steady, was 1/4-1/2¢ under last night. Corn finished a shade higher. Higher bids were a shade to 1/4-1/2¢ higher. And provisions varying from 1/4-1/2¢ higher to 1/4-1/2¢ lower.

## COTTON MARKET.

New York, September 25.—Weather conditions in the Southwest caused an advance in the early trading today. The advance to 1 1/4¢ for December, or about 10 points above the low of the week, was followed by a retracing of a good deal of the advance and the market soon became unsettled. Private cables reporting a threat of labor trouble in the Southwest and a strike in the cotton fields in the early part of the week, and a report that the cotton crop in the Southwest was 10 per cent below the average, were the main factors in the movement. No doubt increased the disposition of other cotton to take profit. The market, however, was not so much affected by the news as it was by the weather. The market was active, and the price was 1/4-1/2¢ higher than the low of the week.

## NEW YORK STOCK MARKET.

New York, September 25.—The feature of the day on the stock exchange was an advance in call money to 7 per cent—the highest rate of the year. The rise occurred just before the close, after a number of issues had recorded their best prices of the year. Among these were the Harman shares, United States Steel and Amalgamated Copper. The sudden rally came in the midst of a degree of activity greater than the market has recently shown. Dealings in the first hour aggregated over \$20,000,000 and the day's total output approximately \$80,000,000.
